ABOUT US

JAZZCON, with group annual turnover of more than Rs. 32 Crore, is one of the largest Electrical Contracting Company in North India, with services ranging from 132/66/33KV Switchyards, 11KV Substations, Design & Job Estimation, Annual Maintenance, Grid Synchronizing, Industrial Projects, Building Management, Programmable Lighting and Commercial Projects.

Today, with technological advancement and up gradation, present day power distribution requires specialized experience and product quality to meet the vital requirements in varied fields of Electrical Engineering. To cater and tackle the intricacies of these distribution needs, it requires updated knowledge of latest technological developments, commitment to product quality and a will of strong customer satisfaction. The Company, with its efficient and dedicated Engineering manpower has made its mission to provide specialized, economical, prompt and value added services to its esteemed and courteous customers. We are determined to serve the Industry with an attempt to innovative development for progression of economic and industrial activities for the benefit of the customer's at large.

We service several Industries like power, chemical, steel, textiles, cement, paper, sugar etceteras with erection, installation and commissioning of main plant switchboards to grid substation to indoor and outdoor electrification. The Company following its tradition of professionalism, values all engineering practices and is equally at home with design of Power distribution or electrical installation and erection. The works executed is a testimony of our commitment. We have developed expertise to blend mechanized and modern methods of erection and installation with assistance from trained and well experienced manpower to deliver economical solutions to the Clients.

"Quality, Coordination and Time schedule" is vital for the success of any Project. These services, in the Company are executed by highly qualified and efficient Project team who with their in-depth experience can take up any sophisticated and time bound Project in the most competitive manner. Since its inception JAZZCON has vastly expanded its market base and today enjoys a position of repute amongst leading architects and electrical consultants.

CONTRACTING

JAZZCON is in the business of contracting for the past decade and a half. Times and technology have changed, but our focus on quality work and on time service hasn't. That's why repeat customers make a substantial part of our business. Jazzcon completed and handed over project worth Rs. 16.00 crores in ten months proving its technical proficiency and financial capability Over time, with good and reliable work we have spread our wings from Baddi in Himachal Pradesh to Cochin in Kerela, from Bharuch in Gujarat to Along in Arunachal Pradesh. Our attention to clients does not end once the project is complete, we remain on task for service. We have attended and solved our client's problem even after four years of project handover.

We have successfully taken on every type of project, from new installations to upgrade and expansions. Our versatile and experienced team thrives on challenge. With latest equipment and a professional team we are always ready to take up any sophisticated project.

Our major contracting services are,

- 132/66/33/11KV Switchyards/ Substations
- Power and Control cabling
- HT / LT Panels
- Grid and Main Earthing
- MS structure and Tray work
- **■** Internal and External wiring
- Internal and External Lighting
- Fiber Optic Cabling
- **■** Telephone and Data cabling
- Analogue and Addressable Fire Alarm System
- Music and PA System
- **CCTV and Access System**
- **■** Building Management System

DESIGN

Carbon footprint, greenhouse emissions and global warming are concerns that are driving change in electrical technology. From designing energy smart factories and offices to solar electric augmentation, green technology is familiar ground to us. Green technology translates into huge savings on electricity. Also, an effective approach, extensive planning and good engineering have ensured that we always deliver practical and workable solutions. Client priority of cost and time are adhered too. We have designed and completed project, amounting to Rs. 6.8 crores in five months time.

Design services offered are,

- Switchyards up to 132KV
- **■** Power Distribution
- **■** Earthing System
- Lighting and Illumination System

- Structured Cabling
- Intelligent Building Management System
- Power Backup and synchronizing
- Fire, CCTV, Music and Access System

ANNUAL MAINTENANCE CONTRACTS

A Stitch in time saves nine. Timely maintenance saves money, breakdown time and also reduces running cost of establishments. Stock register, Schedules & Charts, Consumables list and vulnerable inventory parts list is all part of our maintenance contract system. We assisted a twenty four hour running textile unit having annual maintenance contract with us increase its production by 8% by special slotting of maintenance schedule, identification of its high fault locations, studying and undertaking remedial measures. It also resulted in reduced maintenance cost.

AMC offered are,

- Commercial establishments with load above 2MVA
- Industrial Units with load above 1.6MVA

KEY PERSONNEL

The Company has a human resource of over 200 professionals. With qualified Engineers, Foremen, Wiremen, Electricians at all levels to meet the demands of changing environment and escalating requirements of modern day customers.

QUALITY POLICY

Quality Comes First. Quality is the main foundation pillar of JAZZCON. Quality is a prerequisite for customer satisfaction.

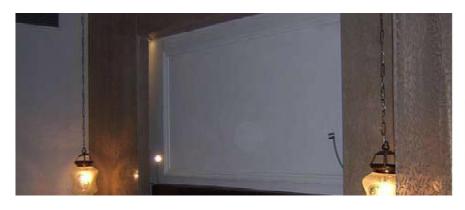

Quality is JAZZCON Group corporate value. Our quality shall be best amongst the electrical contracting companies. All Business Areas will contribute to this achievement through customer focus, commitment and participation by everyone and continuous improvement. Our success in the market depends on our ability to always provide our customers with services that meet or exceed their expectations. To succeed we must perform better than our competitors. This requires that we continuously listen to our customers in order to understand their needs and promptly implement sustainable improvements in our operations based on these needs.

Each employee within the Company shall always be customer focused and committed to Quality excellence. Each employee within the company is expected to actively contribute to the achievement of Quality excellence. To continuously manage this, everyone needs to have an open mind for change, base actions on facts and apply a long-term perspective.

Customer needs shall be transformed into individual action items and results monitored against measurable objectives. This way, every individual can understand how to contribute to customer satisfaction and Quality improvement. A preventive and proactive approach will always be applied.

Our key Quality objectives are,

- Exceed our customer's needs and expectations
- **■** Timely completion of Projects
- **■** Continue technological innovation
- Improve Quality through regular monitoring
- Maintain a winning

■ ENVIRONMENT POLICY

This environmental policy covers all aspects of our Company's operations.

We dedicate ourselves to a future that preserves natural resources and also commit ourselves for continuous improvement in our environmental performance and the elimination of pollution at source.

We strive to develop and provide services that:

- Comply with the conditions of applicable environmental legislation and regulation.
- Set, monitor and attain all objectives and targets to ensure that we maintain strict control over the environmental aspects of all our services.
- Commitment to an ongoing reduction in energy consumption.
- Minimize the impact of our services on the environment through waste reduction, along with increases in reuse and recycling.
- Periodic review and training of the policy to ensure that it remains relevant and appropriate to the organization.

■ HEALTH & SAFTEY POLICY

Policy objectives

Health, safety and wellbeing (HS&W) is an integral part of our business and is actively supported through management leadership and commitment.

HS&W policy is also aimed to protect the Company from any legal charges by applying national legislation.

The policy

It is the policy of the Company to develop, implement and continuously review health, safety and wellbeing management systems and programs, consistent with company's HS&W Standards, local operating conditions and legislation.

In line with our business principles,

- We are committed to the health, safety & wellbeing of our customers, employees and the communities in which we operate.
- We will disclose any information that comes to our knowledge, which clearly demonstrates that any of our services breach accepted safety standards or guidelines.

Management will

- Support HS&W vision and principles by displaying leadership behaviors that visibly demonstrate our belief that HS&W is a priority issue and integral to our business.
- Establish a robust and durable HS&W culture, by ensuring compliance with relevant statutory obligations, codes of practice and industry standards.
- Empower our people by providing information, instruction, training and supervision to enable them to perform their roles safely.
- Involve employees, customers and suppliers in HS&W matters, and consult with them on ways to reduce workplace hazards and improve HS&W management systems.
- Commit resources to develop, maintain and communicate HS&W programs, objectives and targets, as well as deliver consistent and effective communications, including reporting internally and externally on local HS&W performance.
- Periodic review and training of the policy to ensure that it remains relevant and appropriate to the organization.
